**USEF BANNED DEPO EFFECTIVE DECEMBER 1, 2019:
JOIN THOUSANDS OF PEOPLE WHO USE THE MASTERSON
METHOD TO SAFELY RELIEVE TENSION AND STRESS
FROM THEIR HORSES**

Fairfield, Iowa, – November 15, 2019 –The use of medroxyprogesterone acetate (MPA), also known as Depo-Provera, to calm horses, especially mares, is common. On Nov.13, US Equestrian (USEF) made a statement in response to a number of recently reported equine fatalities associated with the use of the injected drug. US Equestrian has banned the use of the drug for all horses competing at USEF-licensed competitions, effective Dec. 1, 2019.

If you have been using MPA or have a horse with behavior issues, wouldn't you prefer to try something that could never hurt your horse?

The Masterson Method® was developed by Jim Masterson, former official bodyworker for the U.S. Endurance Team and scores of other international equine athletes. Using easy-to-learn techniques, riders, owners and stable managers can learn ways to relieve tension for the horses in their care. Testimonial after testimonial describe The Masterson Method as the ideal way to calm and relax the horse by reducing stress in the key junctions of the horse's body.

Try The Masterson Method Bladder Meridian technique on your horse for free. See if you don't experience a happier, more relaxed horse.

ABOUT THE MASTERSON METHOD

The Masterson Method was developed by Jim Masterson after many years as a professional equine bodyworker. It is an interactive approach to equine massage in which the horse is an active participant. The practitioner learns to recognize and use the responses of the horse to their touch. Through the horse's response, the practitioner is able to locate and relieve tension in key junctions of the horse's body that most affect performance. It is something done *with* the horse, rather than *to* the horse.

Anyone can learn The Masterson Method. For horse owners, horse caregivers and equestrians, The Masterson Method can deepen the bond between horse and human. It is a significant way to improve performance, open new levels of communication and develop the horse's trust.

Countless testimonials tell the stories of horses and humans that have been forever transformed for the better by The Masterson Method. Read Masterson Method participants' testimonials [here](#).
